

**IDEVO
SPC WALL
PANELS**

INTERIOR WITH A NEW CHARACTER

The installation of SPC wall panels is simple and intuitive. Panels are installed directly onto the wall using adhesive. Due to their small thickness, they can also be installed over existing tiles. The installation is quick, and the tongue-and-groove connection ensures a very subtle and stylish finish.

INSTRUCTIONS

SPC TECHNOLOGY

DURABLE AND UNIVERSAL

SPC wall panels are 100% waterproof and safe. They are perfect for bathrooms, kitchens, and other residential spaces, as well as commercial areas.

TECHNOLOGY TAILORED TO YOUR NEEDS

Our panels are made using SPC (Stone Polymer Composite) technology. They feature a hard composite core, which is covered by a decorative layer and protected with a UV-resistant coating. This makes the panel highly resistant to scratches and damage. Panel installation is simple and intuitive, and their connections are subtle and do not require grouting.

DESIGN YOUR INTERIOR WITH VOXBOX

VOXBOX is an intuitive interior design tool that allows you to precisely plan a space using Idevo SPC wall panels. With this program, you can easily:

- 1 Visualize your design ideas by selecting Idevo for your chosen room. Test various layouts and color combinations to create a harmonious, cohesive space.
- 2 Adjust details and see how different elements interact within the virtual model before starting the actual project.

VOXBOX not only simplifies interior arrangement but also allows you to experiment with different styles, making it easier to choose the right solutions.
