Models – Color	708 – White	
Installation	Skirting boards attached with glue to a flat wall surface, supported on the floor in a horizontal orientation inside rooms. Two types of glue are needed to install the skirting boards: - Vilo mounting adhesive - for skirting boards - hot glue - for mounting finishes	
Cleaning	<ul style="list-style-type: none"><li>• Do not allow liquid stains to dry</li><li>• From time to time, clean the skirting boards with a damp cloth and a mild detergent</li><li>• Intensive scrubbing and use of strong detergents may damage the skirting board's surface or cause its discoloration</li><li>• Do not clean with coarse and rough clothes, sponges or brushes</li><li>• Never use solvents, acids or any other liquids based on these substances for cleaning</li><li>• No cleaning liquids should be left on the surface, they must be rinsed off with water, cleaning substances left out on the surface may cause its discoloration</li></ul>
